

Lifestyle Partner Approval Rating

All of our partners receive a 100% **Lifestyle Partner Approval Rating**. It is our duty and commitment to always work with partners that have been fully vetted and approved by us. We carry out an annual **Partner Review** which involves, spot checks, 3rd party web reviews, venue inspections, and product and customer feedback analysis. This means you will only be working with the very best that Catalunya has to offer when you visit the city.

What does the Lifestyle Partner Approval Rating mean?

It means that you can enjoy this experience in the knowledge that we have used our vast experience and knowledge to ensure that the activity represents the very highest standards. Many of our partners do not advertise and hence cannot be found in guide books or online forums. This is where you can rely on us. We don't always look for the biggest commercial partners our specialty is looking for local expressions of Catalunya that can give you an authentic, enjoyable experience. We evaluate each partner against our stringent criteria before engaging their services.

We try them all

We have over 300 activities in and around the city for you to enjoy and we aim to try every single one.. it wouldn't be fair to recommend something we have not tried ourselves would it? You can read about some of the activities we have tried on our blogs or follow us on facebook to see how we continue to develop and try new products for you.

What you don't see

A website and a telephone conversation can tell you a lot about a company or service but it is still no guarantee of success, we have been working with many of our partners since 2003 and we know that we share the same values and attitudes to service and professionalism. Sometimes things can go wrong and there is nothing like working with a partner that is committed to client satisfaction and going the extra mile. All of our partners have a proven track record with us and we are happy to continue working with them.
